

W3RMSCL - Windows 3.0 Real-Mode Software Compatability List

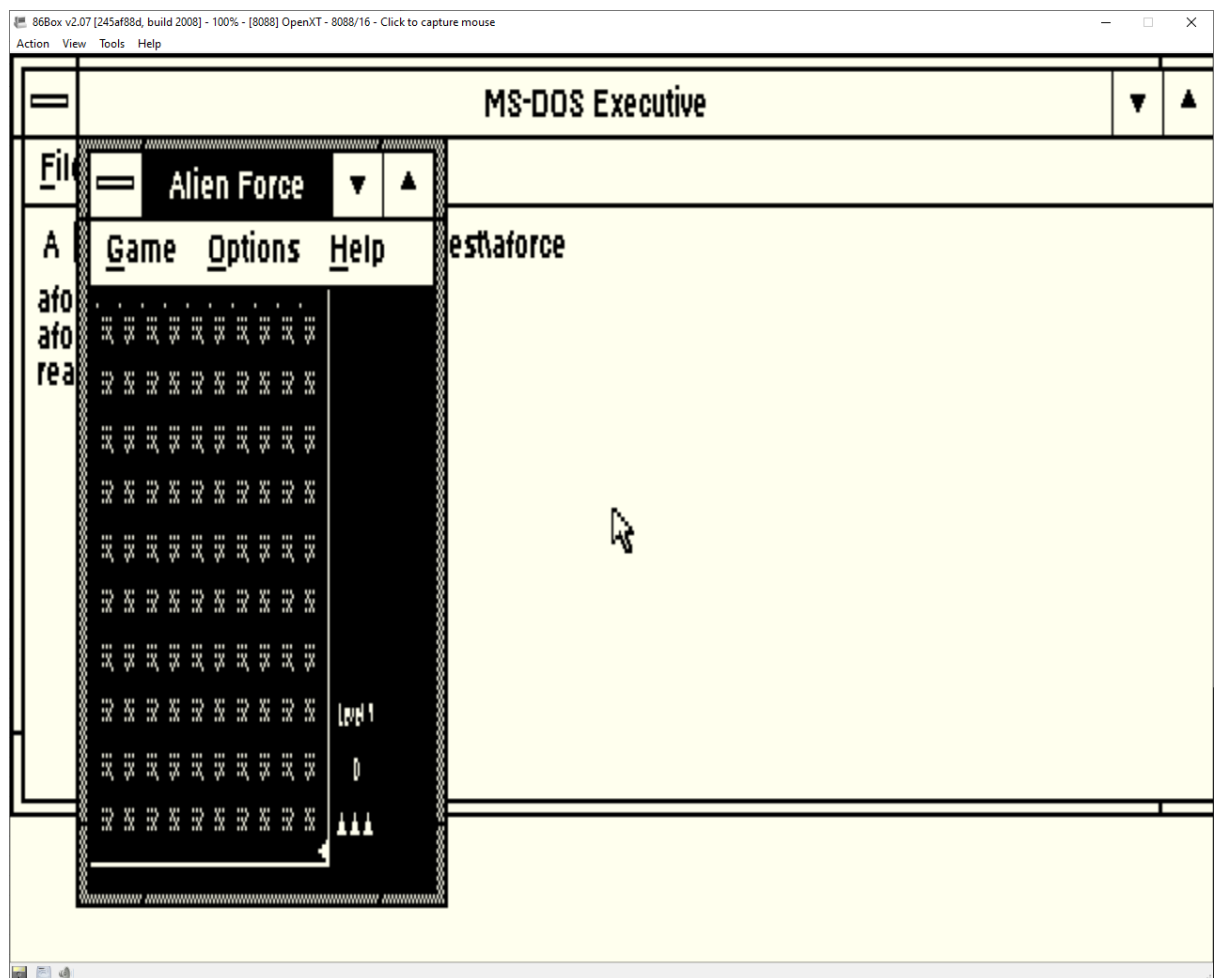

Intent: Create a software compatibility list for Windows 3.0 Real-Mode and a freely distributable collection (non commercial software only).

Scope: Any Win 1x, 2x, 3x software and testing on Windows 3.0 in real mode on 8088, 8086 hardware (or 86box emulated machine) with 640K RAM and CGA, VGA (with 8086 friendly driver) or Hercules displays.

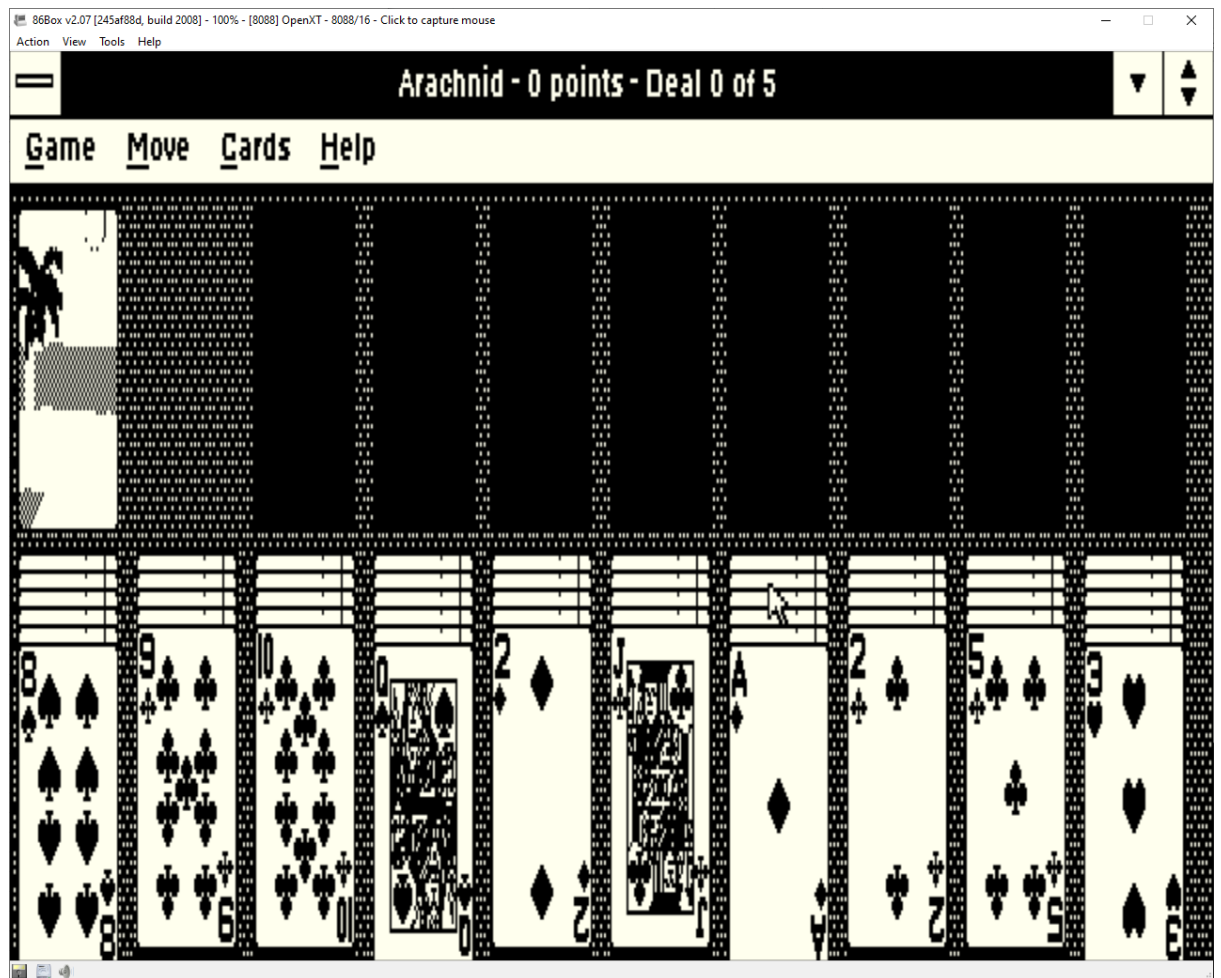

Screenshots are below for CGA and VGA and a table will usually follow with the test results. If one of the columns is empty it means it's not yet been tested.

Excuse the lack of formatting - I'm still experimenting with the best way to keep these results organised.

collection	filename	Date	Name	Category	CGA RESULTS	VGA RESULTS
------------	----------	------	------	----------	-------------	-------------

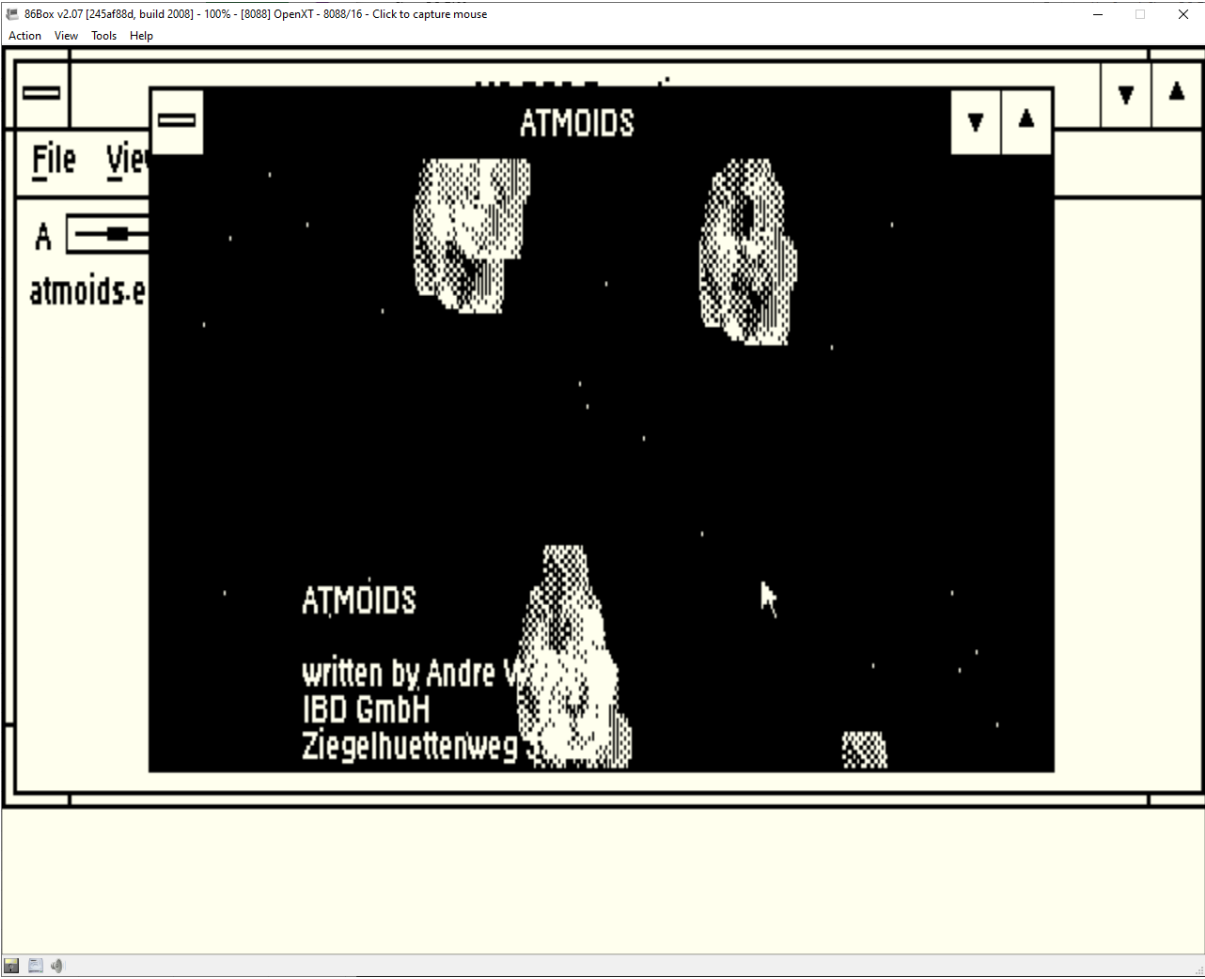

cica9207	aforce.zip	910 110	Attack Force-type Shoot 'Em Up Game	Game	OK
